This program is the first in an EBC program series of four meetings to be held in conjunction with the four regional offices of the Massachusetts Department of Environmental Protection. These meetings will provide EBC members and future members from throughout Massachusetts with the opportunity to meet and hear from Marty Suuberg, Commissioner of the Mass DEP and learn firsthand about his top environmental priorities for the department and the new administration. And, with much of the DEP decision making taking place at the regional level, this program will also provide an opportunity to showcase the leadership of the DEP Central Region and discuss the important issues and priorities of the central region.

The second meeting in this series will take place on July 14, 2015 in conjunction with the Mass DEP Southeastern Region.
